Subject: RE: follow-up planning call to coordinate PFAS keynote addresses

Dear Principals' Designates,

Thank you for taking the time to help coordinate remarks for Dr. Birnbaum, Dr. Breyse, Ms. Sullivan, and Dr. Orme-Zavaleta for the Federal Information Exchange on PFAS.

I have attached to this message DRAFT powerpoint slides for Dr. Birnbaum and Dr.

Breysse. Please note that these are not final and may be changed prior to the meeting. Additionally, I have attached DRAFT talking points for Dr. Orme-Zavaleta. Her slides are still under preparation but these will give you an indication of the themes of her talk. Ms. Sullivan is still considering whether to utilize powerpoint or not; Tricia Underwood looks forward to verbally telling us plans for her talk during our conference call.

This information is for planning purposes of the principals and their designates as copied to this email, and should not be distributed beyond this group without permission.

I hope that you will have a chance to preview these, and I look forward to our discussion in about 45 minutes.

Thank you,
Caitlyn

Good morning,

I would like to follow up to ask whether you are available at 10 am tomorrow to discuss the principals' remarks at the Federal Information Exchange on PFAS. Additionally, are you prepared to share powerpoint slides with the rest of the planning group at this time? The principals themselves will be speaking next week on the 31st.

Thank you,
Caitlyn

Subject: follow-up planning call to coordinate PFAS keynote addresses

Dear All,

Thank you for taking part in this morning's preliminary keynote address planning call. I appreciate you all taking time out of this snowy morning to help us coordinate remarks. As we discussed, I will be in touch with the principals to facilitate a call among themselves. However we would also like to schedule a staff-level follow-up call to further discuss remarks and preview prepared powerpoint slides.

Please let me know your availability one week from today, January 24th.

Thank you,
Caitlyn
